

# HOLLYWOOD WALK OF FAME (answer)

## by Peter Sarrett

The first stage of the puzzle was intended to train solvers for stage two. For each star, read the nth letter where n = the number of points the star has been rotated by. This yields:

NW CORNER CAFÉ NINE

Entering the café in building nine from the building's lobby and turning left reveals a trail of stars on the ground.

This walk of fame has no names, and instead of icons representing MOVIE, MUSIC, etc, each star features 2-5 icons representing other things. By correctly identifying the word each icon represents and removing a letter from each word, solvers can decode the star into the name of a celebrity.

CHARM ELTON CHEST ONE – MECE = CHARLTON HESTON  
MAIL TONY BEAR LEG – AYAG = MILTON BERLE  
BEAN ALF FLY NECK – ALYN = BEN AFFLECK  
BARBER EAST ROE ISLAND – EEOL = BARBRA STREISAND  
STAND CRAB GULL SOCK – TCGS = SANDRA BULLOCK  
TWO BODY BALL PEN – TBBP = WOODY ALLEN  
WALL TEAR CAR MONK BITE – LAAMB = WALTER KRONKITE  
COWL REPORTER – WR = COLE PORTER  
ANTS HONEY HOOP KINGS – SEOG = ANTHONY HOPKINS  
JAR MESA DIE FAN – RAIF = JAMES DEAN  
ATOMS WELL DECK – AWN = TOM SELLECK  
ACE LION BED IRON – AOBR = CELINE DION  
CARET HALF CRANK LINK – CLCK = ARETHA FRANKLIN  
AWL PACK DINO – WKD = AL PACINO  
XRAY BOLT GEAR – XTA = RAY BOLGER  
SOAP PHI HALO RENO – ACHW = SOPHIA LOREN  
SPIT KEEL EYE – TEY = SPIKE LEE  
IRON HOWL CARD - ILC = RON HOWARD  
HAIR PRISON FJORD – IPJ = HARRISON FORD  
FIRE DASH TAXI REN – IHXN = FRED ASTAIRE  
GENIE SHACK MANE – ISE = GENE HACKMAN

The icons in each star are rotated, and just as in stage 1 you must take the nth letter where n = the number of points of rotation. But not from the celebrity's name. The data you care about are the letters removed from the icons to get the celebrity's name. Indexing into *those* letters yields **MALE STAR OF WALK THE LINE**, which is **JOAQUIN PHOENIX**
