

Clue #1 Hint

- In this puzzle, the numbers measure how many unbroken lines of filled-in squares there are in any given row or column. For example, a clue of "4 8 3" would mean there are sets of four, eight, and three filled squares, in that order, with at least one blank square between successive groups.
- It helps tremendously to mark with a dot spaces that you know should not be filled in.
- Do not guess.
- If the number is 8 or greater, there are spaces you can fill in in the center. For Example:

becomes

- Count 10 from the left to mark the right-most square you know must be colored, then count ten from the right to get the left-most. Shade in between.
- A square marked as empty in the middle of an uncompleted row may force a large block to one side or the other. Also, a gap that is too small for any allowable block may be marked as empty.

Clue #2 Hint

You have pennies, nickels, dimes, and quarters...figure out how many of each will be the fewest to carry for each dollar amount. Count them up and convert the numbers to letters.

Clue #3 Hint

A=4, B=3, C=2, D=1, F=0. Total up each row to find the corresponding letter for each class. For example, A+ B+ B+ C- D would be $4+3+3+2-1 = 11$, which is the letter K.

Clue #5 Hint

- The capital letters in the title spell BUMPY. Maybe a good hint to do something with a code that involves bumpy patterns.
- The pictures on the page are randomly sorted. Find where they are on the bridge, and mark each one you find on your "bridge map" to the right.
- Interpret each group of 6 as Braille. The first unit has four pictures in an "L" shaped pattern this gives you the first letter of the solution which is a "V"

Clue #6 Hint

H E A R T is the key, find words with those letters in them and look at what's left over.

Clue #7 Hint

The movies and their stars form letters. You may have to anagram them to get your destination.

Clue #8 Hint

- "Wild Woods" is nine letters long and there are nine holes on the scorecard. His name depends on how he did on each hole. Only the difference between his score and par on each hole matter in determining his nickname.

- If he shoots par on every hole his nickname would be wildwoods. If he shoots par on every hole except the 4th hole where he shoots 21 over, his nickname would be wilywoods (note that d=4 and y=25, where y is 21 higher).

Clue #9 Hint

The order of the employees goes:

- 6, Granite - white and black pepper looking rock
- 1, Redwood - reddish wood
- 4, Silicon - silver rock
- 1, Pine - lightest color wood
- 5, Quartz - clear rock
- 2, Poplar - yellowish color wood
- 7, Sandstone - tan and brown striped rock
- 3, Obsidian - black rock
- 3, Walnut - darkest brown wood
- 1, Oak - smooth visible grain lines

The story gives you the order and the number on each object tells you which letter to take to form the solution.

Clue #11 Hint

Identify the cities, here is some help:

St. Louis, Paris, Anaheim, Chicago, Edinburgh, London,
Montreal, Hershey, Philadelphia, Barcelona, Venice, Santa
Cruz, Memphis, Toronto, Sydney

Take either the 1st or 6th letter of the city based on which
number the picture belongs to.

Clue #12 Hint

Convert the prices of the cheese fondues to letters. This will tell you what to do with the fondue bourguignonne section, which will then tell you what to do in the chocolate fondue section.

Clue #13 Hint

13A (Sports): Each of the images represents the mascot of a professional sports team. The teams you should find are: Toronto Blue Jays, Golden State Warriors, Oakland A's, Buffalo Bills, Atlanta Falcons, Orlando Magic. Take the first letter of the location of each team in the order they appear on the paper to spell the answer.

13B (Movies): Each of the words represents a movie that was part of a trilogy. If it was the first movie in the trilogy, take the first letter in that row, and so on. Here are the movies you need:

- Addams Family Values (2nd movie)
- Matrix Reloaded (2nd movie)
- Mad Max Beyond Thunderdome (3rd movie)
- Desperado (2nd movie)
- Die Harder (2nd movie)
- The Fast & The Furious: Tokyo Drift (3rd movie)
